## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-14 & 17-18, are drawn to a method for transmitting/receiving multiple channels in a TV broadcasting system such the multiple channels are organized or bundled within several major channel bandwidths, wherein each major channel bandwidth includes multiple minor channels, classified in class 725, subclass 95, which is directed to "channel or bandwidth allocation", in a User Requested Video Programming System.
  - II. Claims 15-16, are drawn to an EPG utilizing various graphical user interface techniques such as a scroll bar window having a scroll bar moving area, classified in class 725, subclass 43, which is directed to Electronic Program Guide displays with a separate window, panel or screen.

Art Unit: 2611

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as a EPG operating according to a particular graphical user interface. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Michael Stein on Friday, January 12th to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2611

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
